Dear Colleague:

For almost 30 years, Neal-Schuman Publishers has maintained one goal — improving, strengthening, and furthering the profession through quality educational materials. It's the same goal that many of you — educators in the field of library and information science — share.

I look forward to building a personal relationship with you — one of our most valued customers — as you prepare the next generation of librarians and information professionals.

Sincerely,

Patricia Glass Schuman

“...the textbook for MLIS
foundations courses...”

Foundations of Library and Information Science

2ND EDITION

BY RICHARD E. RUBIN

Foundations is the most current teaching resource available, covering the practice of librarianship, the place of libraries in the broader information infrastructure, the development of information science, and more. Library and information science students and professionals will find the background and concepts they need to meet today's — and tomorrow's — challenges.

1-55570-518-9. 2004. 6 x 9. 581 pp. \$85.80.

Table of Contents

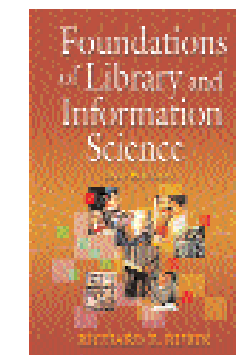

- 1 The Information Infrastructure: Libraries in Context
- 2 Information Science: A Service Perspective
- 3 Redefining the Library: The Impacts and Implications of Technological Change
- 4 Information Policy: Stakeholders and Agendas
- 5 Information Policy as Library Policy: Intellectual Freedom
- 6 Information Organization: Issues and Techniques
- 7 From Past to Present: The Library's Mission and Its Values
- 8 Ethics and Standards: Professional Practices in Library and Information Science
- 9 The Library as Institution: An Organizational View
- 10 Librarianship: An Evolving Profession

Richard Rubin is Director and Professor at the School of Library and Information Science at Kent State University, Kent, Ohio.

“Rubin's book will for now be the textbook for MLIS foundations courses...As Victorian travelers once carried their Baedekers, MLIS students will now cart their Rubins.” *Journal of the American Society for Information Science*

“Highly recommended both for use in library schools and for professional reading.” *Reference & User Services Quarterly*

“A superb resource that contributes greatly to its field.” *Booklist*

“...information
textbooks are as
rare as golden
hen's eggs...”

Fundamentals of Information Studies:

UNDERSTANDING INFORMATION
AND ITS ENVIRONMENT

BY JUNE LESTER AND
WALLACE C. KOEHLER, JR.

With companion Web site

Fundamentals of Information Studies is the first book geared towards undergraduate information studies programs to approach the field from a multidisciplinary perspective.

1-55570-474-3. 2003. 6 x 9. 320 pp. \$72.60.

Table of Contents

- 1 The Impact of Information in Society
- 2 The Fundamental Concepts of Information
- 3 History of Information Technology
- 4 Current Information Technology
- 5 Societal Institutions for Creation, Distribution, and Management of Information
- 6 The Information Professions
- 7 The Impact of Information on Cultures and Societies
- 8 The Economics of Information
- 9 The Regulation and Politics of Information
- 10 The Areas and Issues of Information Policy
- 11 Information Ethics
- 12 Information Future(s)

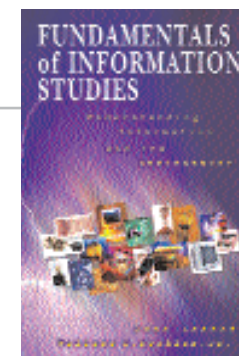

June Lester is Professor and former Director, University of Oklahoma School of Library and Information Studies.

Wallace C. Koehler, Jr., is Director and Associate Professor in the Department of Information Studies at Valdosta State University, Valdosta, Georgia.

“Any library practitioner who ever considered cobbling together a similar course will understand that information textbooks are as rare as golden hen's eggs and they will no doubt appreciate this work's focus, balance, and organization.”

The Journal of Academic Librarianship

“I would consider *Fundamentals of Information Studies* a useful educational source for several undergraduate courses...” *Information Research*

“...the standard text...”

Introduction to Public Librarianship

BY KATHLEEN DE LA PEÑA MCCOOK

Students of library and information science studies will find this the essential source for learning about the successful management and functioning of public libraries today.

1-55570-475-1. 2004. 6 x 9. 406 pp. \$79.13.

Table of Contents

- 1 The Landscape of Public Libraries at the Beginning of the Twenty-First Century
- 2 Brahmins, Bequests, and Determined Women: The Beginnings to 1918
- 3 Public Library Growth and Values: 1918-2004
- 4 Statistics, Standards, Planning, and Results
- 5 Organizations, Law, Funding, and Politics
- 6 Administration and Staffing
- 7 Structure and Infrastructure
- 8 Adult Services
- 9 Youth Services
- 10 Connections
- 11 Global Perspectives on Public Libraries
- 12 Twenty-First Century Trends in Public Librarianship

Kathleen de la Peña McCook is Distinguished University Professor, School of Library and Information Science, University of South Florida, Tampa.

“This gargantuan effort by one of this country’s most insightful and productive library educators is the first comprehensive textbook that addresses the full dimensions of public librarianship in America...the work as a whole is a treasure, an essential tool for the LIS teacher. Kudos to McCook for this massive reservoir of original research and thoughtful analysis that will serve as a correction to its less-thorough predecessors.”

Library Journal

“This book will become the standard text for those of us around the country committed to inspiring the next generation of librarians and library leaders.” *From the Foreword by Deborah Jacobs, City Librarian, Seattle Public Library*

“Hunter has provided the profession with a text...”

Developing and Maintaining Practical Archives:

A HOW-TO-DO-IT MANUAL, SECOND EDITION

BY GREGORY S. HUNTER

Developing and Maintaining Practical Archives is an ideal text for students to learn from and carry with them into the field. A solid, practical manual, rooted in traditional archival theory.

1-55570-467-0. 2003. 8 1/2 x 11. 457 pp. \$85.80.

Awards: Society of American Archivist’s 2004 Waldo Gifford Leland Award for writing of superior excellence and usefulness in the field of archival history, theory or practice.

“...a comprehensive, intelligent, and fresh overview of what archives are and what archivists do, presented in a style nicely suited to beginners in the field or students in introduction to archives classes.” *From the citation*

Table of Contents

- 1 Introduction to Archives and Manuscripts
- 2 Conducting a Survey and Starting an Archives Program
- 3 Selection and Appraisal
- 4 Acquisitions and Accessioning
- 5 Arrangement
- 6 Description
- 7 Preservation
- 8 Security and Disaster Planning
- 9 Access, Reference, and Outreach
- 10 Digital Records
- 11 Audiovisual Archives
- 12 Management
- 13 The Archival Profession

Gregory S. Hunter is a Professor in the Palmer School of Library and Information Science, Long Island University.

“Hunter has provided the profession with a text that is best suited for beginning archivists and graduate students in archival studies or library science programs.” *Journal of Academic Librarianship*
“Excellent.” *Library Journal*

“...a foundation stone...”

Information Literacy Instruction

BY ESTHER S. GRASSIAN AND JOAN R. KAPLOWITZ

Written by two academic library leaders, this text is a thorough, in-depth discussion of both the theory and practice of library instruction.

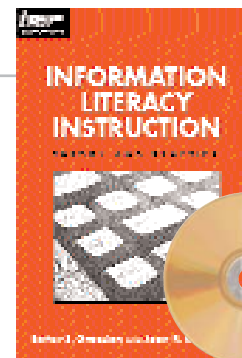

1-55570-406-9. 2001. 6 x 9. 468 pp. Book and CD-ROM. \$85.80.

Award: Winner of the 2004 ACRL Instruction Section Publication Award

“Grassian and Kaplowitz’s book is a seminal work...a foundation stone for aspiring instruction librarians in graduate programs...” *From the citation*

Table of Contents

- 1 Information Literacy Instruction: What Is It?
- 2 History of Information Literacy Instruction
- 3 A Brief Introduction to Learning Theory
- 4 An Overview of Learning Styles
- 5 Library Anxiety, Mental Models, and Conceptual Frameworks
- 6 Critical Thinking and Active Learning
- 7 ILI Program Planning
- 8 Selecting Modes of Instruction
- 9 The Instructional Menu
- 10 Basic Copyright and Design Issues
- 11 Designing Instructional Modes and Materials
- 12 Assessing, Evaluating, and Revising ILI Programs
- 13 Teaching: Preparation, Performance, and Passion
- 14 Designing ILI Programs for Diverse Populations
- 15 Delivering ILI in Various Environments
- 16 Teaching Technology
- 17 Using Technology to Teach
- 18 Visions of the Future: Two Perspectives

Esther S. Grassian is Instructional Services Coordinator at the University of California Los Angeles College Library.

Joan Kaplowitz is Head, Research, Instruction, and Collection Services at the Louise M. Darling Biomedical Library, University of California Los Angeles.

“*Information Literacy Instruction: Theory and Practice* is suitable both for use in library science education and in professional development.... Grassian and Kaplowitz should be congratulated on producing a fine piece of work that will prove useful for years to come.” *Reference & User Services Quarterly*

“This book will serve as a foundation stone for aspiring instruction librarians in graduate programs, as well as for those who are already teaching.” *College & Research Libraries News*

“...a primer on book repair...”

Book Repair:

A HOW-TO-DO-IT MANUAL FOR LIBRARIANS, SECOND EDITION

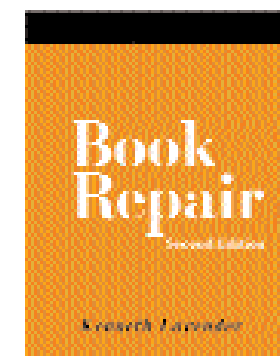

BY KENNETH LAVENDER

Covering both basic book repair techniques and sound conservation practices, this step-by-step manual includes illustrated sections on cleaning, mending, hinge and spine repair, strengthening paperbacks, and more. This is the practical guidance students need to successfully perform archivally sound repairs.

1-55570-408-5. 2001. 8 1/2 x 11. 293 pp. \$92.33.

Table of Contents

1. The Basics: Tools and Techniques
2. Paper Cleaning
3. Treatment of Water-Damaged Books and Papers and Removal of Mold and Mildew
4. Paper Mending
5. Hinge and Spine Repair
6. Protective Enclosures

Kenneth Lavender holds a joint appointment as Assistant Professor in the School of Information Studies, Syracuse University, and Special Projects Librarian in the Special Collections Research Center of the Syracuse University Library.

“One of the most comprehensive book repair manuals published...” *Portal*
“A primer on book repair.” *Booklist*

DESIGNING INFORMATION ENVIRONMENTS FOR PURPOSE

BY ALAN GILCHREST AND BARRY MAHON

PREFACE BY PETER MORVILLE

This state-of-the-art guide will appeal to students in library science, knowledge management, and information studies programs.

1-55570-493-X. 2004. Hardcover. 6 x 9. 256 pp. \$99.00.

Table of Contents

A brief history of information architecture — Peter Morville

Part 1: The design environment

- 1 Developing an information model
- 2 Document, information, data, content
- 3 Developing a scalable information architecture for a cross-sectoral, distributed citizen's information system

Part 2: Software environments

- 4 Specifying and procuring software
- 5 The care and feeding of software vendors
- 6 A flexible architecture for managing current awareness

Part 3: Managing metadata

Part 3.1: Managing interoperability

- 7 XML in text-based systems?
- 8 Topic maps
- 9 A devolved architecture for public sector interoperability
- 10 Identifiers and interoperability

Part 3.2: Terminology tools

- 11 Information architecture and vocabularies for browse and search
- 12 The taxonomy
- 13 From architecture to construction
- 14 Building a business taxonomy

Part 4: The user interface

- 15 Interfaces
- 16 Guru interview
- 17 Designing a worldwide experience

Alan Gilchrest and **Barry Mahon** are both Associate Consultants with TFPL Ltd., the leading international organization providing specialist consultancy, research, recruitment, training, and conferences in information and knowledge management.

“Librarians interested in staying on the cutting edge of technology will welcome this volume...”
