Netspeed 2009: Call for Proposals

It's that time of year again! The Alberta Library (TAL) invites proposals for conference sessions at Netspeed 2009, to be held October 21-23, 2009, in Calgary, AB.

Netspeed is a conference for librarians and technical staff from all library sectors. The conference serves to highlight new technologies of interest to libraries. Sessions cover a variety of topics including emerging tech trends, newly implemented technology, and the impact these have on the library and the community.

Proposals for conference and pre-conference sessions are welcome, as are suggestions for speakers and topics. All submissions must be received by February 13, 2009.

Session proposals should include:

- * Session title.
- * Brief abstract (max 250 words).
- * Target audience.
- * Brief summary of speaker's experience with the topic.
- * Contact information for all speakers.

Netspeed provides many benefits for speakers, including complimentary conference registration and assistance with travel costs. Please limit proposals to 2 speakers per session.

Please e-mail session proposals and ideas by February 13, 2009 to netspeed@thealbertalibrary.ab.ca.

For additional information regarding the Netspeed conference, please visit conference website at <http://www.thealbertalibrary.ab.ca/netspeed>.

Thank you for considering being part of Netspeed 2009!
