www.accesscopyright.ca
Jennifer Lamantia

Access Copyright has been providing educators and librarians across Canada with innovative copyright licensing solutions since 1988. Our licences give immediate, legal access to copyright protected materials needed to get the job done, while ensuring that publishers and creators are fairly compensated when their works are copied instead of purchased.

Access library resources

from anywhere
with

WorldCat

Make global connections at the local level

The OCLC **WorldCat** database has evolved into an array of flexible tools for discovery of the riches in library collections. For example, **WorldCat.org** offers a destination Web site for anyone on the Internet to search for items in libraries.

Now, OCLC is exploring a new service called **WorldCat Local** that interoperates with locally maintained services like circulation and resource sharing. It uses a locally branded interface for

searching the entire WorldCat database and gives your library's resources top billing.

With WorldCat, libraries in Ontario and across Canada can achieve far more working collectively than independently. And information seekers can find far more library resources than ever before. **Visit OCLC in booth 311 to learn how.**

The world's libraries.
Connected.
