## **Announcing Two New Best Practices Guides from OLAC CAPC!**

The Online Audiovisual Catalogers Cataloging and Policy Committee (OLAC CAPC) is pleased to announce the publication of two Best Practice Guides – “Best Practices for Streaming Media Using RDA and MARC21” and “Best Practices for Cataloging DVD-Video and Blu-ray Discs Using RDA and MARC21.”

In addition to the set of best practices, both documents include many in-line and full MARC record examples illustrating the best practices. The documents are accessible at the OLAC website (<http://www.olacinc.org/drupal/?q=node/358>). Direct links to each document:
